

Ski touring in the Carpathian Mountains

7 days / 6 nights

During this trip we will discover the South-eastern part of Transylvania. You will ski in Bucegi Mountains and in Piatra Craiului Mountains.

Hut-to-hut ski touring involves travelling through mountain landscape in winter giving access to wild, isolated mountain, remote and pristine landscape that is rarely experienced by resort-based skiers.

The Carpathian Mountains are fantastic places for ski touring with very varied terrain. A network of traditional huts provides the best service without having to carry your luggage or to book our overnights.

A journey in the middle of pastoral tradition in complete osmosis with a wild nature sheltering brown bears, chamois, wolves and lynxes.
