

The Carpathian Mountains, villages and castles - guided version

8 Days / 7 Nights

Come to discover these natural parks, their rich fauna and flora, their great horizons and their spectacular landscapes! You will also discover the local way of life: pastoral and full of traditions. These mountains with exceptional natural conditions offer a strategic advantage; they were chosen to erect fortresses to protect the Transylvania borders. In the 14th century, the Saxons built the Bran fortress. This magnificent castle had a protecting role against Ottoman invasions and the migratory peoples. However, it is, above all, associated with the prince Vlad the Impaler of Wallachia, the character at the origin of the fictional character of Dracula...

Stoker's novel. This story is loosely based on Vlad Tepes who ruthlessly defended this part of Transylvania, and in the process, the legend of his rather gruesome killings inspired the story of Dracula. Bran Castle it's an amazing example of 14th century Gothic architecture that looks like it was carefully placed on top of a mountain. Going to Bran Castle one can really experience the feeling of what it was like to live in those times and places.
